

MAINTENANCE INSTRUCTIONS

WISA®-Pro Panellings Spruce 14x120 white waxed

Removal of stains

Waxed interior decoration panellings can be washed by wiping it with a damp cloth. Some alkaline detergent, such as dishwashing liquid, can be added to the washing water. The use of strong solvents should be avoided because they may deaden the gloss of the waxed surface.

Maintenance treatment of a waxed surface

A waxed product can be maintenance treated (re-waxed) as follows:

- Roughen the waxed surface with sanding paper, roughness No P 150, before any re-treatment.
- Remove sanding dust.
- Apply one coat of TEKNOWAX or PANELWAX with a foam plastic sponge.
- Let the wax coat dry.
- Polish the surface with a rough cloth.
